## Certification for Your Electric Vehicle

Accredited experts from TÜV SÜD Automotive assist you in obtaining approval for your vehicle – from two-wheelers, quads and passenger cars to heavy commercial vehicles. Our tests are based on:

1. 2007/46/EC and 2002/24/EC
2. ECE R 100
3. StVZO (German Road Vehicle Registration Regulation)

Our specialists will be pleased to work out a comprehensive safety concept for the development, production and maintenance of E-vehicles (HV technology).

### Benefit from the following certification services:

- Fast and reliable certification
- By generally recognized and accredited experts
- Support and consulting throughout your development process
- Everything from a one-stop source

Relations with our customers are built on long-standing partnerships. Siegfried Elbert will be pleased to answer your questions on +49 (0) 89/3 29 50-6 09 or send an email to [siegfried.elbert@tuev-sued.de](mailto:siegfried.elbert@tuev-sued.de).
